

“Global Trends, Local Impacts”

**THE NATIONAL ASSOCIATION
OF PLANNING COUNCILS (NAPC)**

2008 Annual Conference

May 7-9, 2008 - Clearwater Beach, Florida

The signs of a sea-change are all around us.

*The world we know is being re-shaped
by rapidly-shifting currents...demographics,
economics, migration, and much more.*

At this conference, leading community practitioners from across the United States and Canada will gather to examine some emerging “big picture” trends and their impacts on our communities. We will explore how to think and plan effectively for the future we face...and we will discuss real-life best practices for leading community change and shaping positive community action.

Keynote Speaker: Nationally-renowned demographer Harold Hodgkinson, Ph.D.

Local Host: Juvenile Welfare Board - The Children's Services Council of Pinellas
Browning Spence, Conference Chair
